

## Hands-on training for farmers and veterinarians: New measures for antimicrobial stewardship

### *Helsinki, Finland*

**3 December 2025**

18:30

Dinner

**Radisson Blu Seaside Hotel**

**Ruoholahdenranta 3, 00180**

**4 December 2025**

09:00 – 16:30

Training session

**Radisson Blu Seaside Hotel**

**Ruoholahdenranta 3, 00180**

### **Registration link to attend onsite**

*Fill in the online registration form by **12 November 2025** to request accommodation and reimbursement of travel expenses. A deposit will be requested to participants requiring accommodation to secure their booking. This will be fully refunded after the training.*

### **Registration link to follow the session on streaming**

*This course has been accredited by VetCEE as a level 7 post-graduate training course. It has undergone evaluation of its content and quality assurance systems. If you have any questions or concerns, don't hesitate to contact us at [amr\\_training\\_farms\\_vets@aenor.com](mailto:amr_training_farms_vets@aenor.com)*

**4 December 2025**

09:00 – 16:30

Training session

|              |                                                                                                       |
|--------------|-------------------------------------------------------------------------------------------------------|
| <b>08:00</b> | Participants' registry; breakfast will be provided for participants arriving to the registration desk |
| <b>09:00</b> | Session begins at 9:00                                                                                |

## Opening of the session

|             |                  |                                                                                          |
|-------------|------------------|------------------------------------------------------------------------------------------|
| <b>9:00</b> | <b>Moderator</b> | Welcome and introduction, presentation of guest speakers, presentation of trainers' team |
| <b>9:05</b> |                  |                                                                                          |

## Welcome address

|             |                                                 |
|-------------|-------------------------------------------------|
| <b>9:05</b> | Ministry of agriculture and forestry of Finland |
| <b>9:15</b> |                                                 |

## Introduction to training programme

|             |                        |                                                         |
|-------------|------------------------|---------------------------------------------------------|
| <b>9:15</b> | <b>Anna-Maria</b>      | Course topics, objectives and activities are explained. |
| <b>9:20</b> | <b>Moisander-Jylhä</b> |                                                         |

## Pre-training test

|             |                  |                                                         |
|-------------|------------------|---------------------------------------------------------|
| <b>9:20</b> | <b>Moderator</b> | Self-assessment test to measure participants' knowledge |
| <b>9:30</b> |                  |                                                         |

## Part 1 – Antimicrobial stewardship legislative framework at EU and national level

|                             |                                                                                                                                          |                                                        |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|
| <b>9:30</b><br><b>9:55</b>  | Overall impact at EU and national level & Introduction to the EU and national regulatory framework supporting antimicrobial stewardship. | <b>Anna-Maria Moisander-Jylhä &amp; Suokumpu Kaisa</b> |
| <b>9:55</b><br><b>10:20</b> | Overview of key provisions at EU and national level. Focus on VMP Regulation.                                                            |                                                        |
| <b>10:20</b>                | Coffee break                                                                                                                             |                                                        |

|                |                                                                                                    |                                                        |
|----------------|----------------------------------------------------------------------------------------------------|--------------------------------------------------------|
| 10:50          |                                                                                                    |                                                        |
| 10:50<br>11:40 | Common elements for EU veterinarians and farmers at EU and national level. Focus on MF Regulation. | <b>Anna-Maria Moisander-Jylhä &amp; Suokumpu Kaisa</b> |
| 11:40<br>12:00 | Instructions for group discussions                                                                 | <b>Sebastian Moya</b>                                  |
| 12:00<br>13:00 | Lunch                                                                                              |                                                        |

## Part 2 – Hands-on training: veterinarians and farmers towards a common goal

*The group activities will be led by Sebastian Moya*

|                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Information about the team of trainers

### **Anna-Maria Moisander-Jylhä**

**Provincial Veterinarian at the Regional State Administrative Agency for Western and Inland Finland**

Anna-Maria Moisander-Jylhä graduated as a Licentiate of Veterinary Medicine from the University of Helsinki in 2007. She began her career as a municipal veterinarian in 2005. From 2010 to 2018, Anna-Maria worked in the field of production animal health care. In 2016, she completed the national specialist veterinarian degree and qualified as a Specialist in Production Animal Medicine.

Since 2018, Anna-Maria has worked as a Provincial Veterinarian at the Regional State Administrative Agency for Western and Inland Finland. Her work has focused particularly on supervising the use, storage, and documentation of veterinary medicines, both by veterinarians and farmers. She also participates in investigations when drug residues are detected in food products.

Her responsibilities further include monitoring and guidance related to animal welfare, monitoring and control of agricultural subsidies, and development tasks concerning current work.

### **Kaisa Suokumpu**

**Provincial Veterinary Officer for the Regional Administrative Agency for Eastern Finland**

Kaisa Suokumpu (DVM 2017, University of Helsinki) has worked as a veterinarian since 2015 and as a Provincial Veterinary Officer for the Regional Administrative Agency for Eastern Finland since 2017. Suokumpu supervises the use of veterinary medicines and records of used veterinary medicinal products done by both veterinarians and farmers. She also works with pharmacologically active residue findings in products of animal origin, complaints about veterinarians, animal transports between Member States and animal identification and registration. Suokumpu is currently studying postgraduate professional studies in specialist veterinary training (general veterinary medicine, emphasis on veterinary inspection) in University of Helsinki.

**Sebastian Moya**  
**University of Nottingham**

Sebastian has focused on studying the psychosocial determinants influencing the implementation of biosecurity measures and the use of antibiotics in dairy cattle and poultry farms by private veterinarians, government veterinarians, farmers and farm workers in Spain and France. His interests are based on participatory methods and cross-cutting communication channels with all stakeholders on livestock farms.

## Information about the training materials

All the presentations and training materials will be available on our webpage [www.armfvtraining.eu](http://www.armfvtraining.eu)

Our webpage also contains links to relevant organizations, as well as programs such as EPRUMA, DISARM and others.

Training materials can be found in English and in national languages on our webpage for dissemination purposes. [We encourage you to use the training materials and to practice different dissemination methods](#), i.e. informing peers about the information received during the training, distributing training materials, giving presentations based on the training materials, among others.

## Next steps

Two months after the training, participants will be contacted via email to fill in an [online questionnaire to measure the training's effectiveness](#). This questionnaire will contain questions about the application of the acquired knowledge in daily work practice. By attending the training, you agree to be contacted for this purpose and to provide information through the online questionnaire.

It is expected that all participants compromise to disseminate the content of the training and knowledge acquired.
